

Data protection, privacy, and cybersecurity

Partnering with clients across the United States, Europe, Middle East, and the Asia Pacific region, our team has the **depth and breadth** of experience to support you with all of your data- and cyber-related needs.

With **deep market knowledge** and **decades of experience**, we aim to ensure you gain maximum value from our work. You can take comfort that the advice we deliver will be **comprehensive, bespoke**

and **practical**, taking into account not just the legal requirements but also the commercial context and **your own business goals**.

With many attorneys that have **technical experience** and backgrounds, we combine our experience and **our knowledge** of the sector in which you operate to ensure that the solutions we deliver are **tailored** entirely to what you need in **every market you operate in**.
